

Job#: 6271

Date Posted: December 14/2017

Location: Toronto, ON

Position: Lead, Hadoop – Big Data Architect

POSITION SUMMARY:

The Big Data Architect will help our clients solve problems by applying the knowledge gained from a wealth of global experience. The candidate will develop high-performing people and teams through challenging and meaningful opportunities, as well as deliver exceptional client service by maximizing results and driving high performance from people, while also fostering collaboration across businesses and borders.

KEY ACCOUNTABILITIES:

- Embrace and live the firm's purpose – to make an impact that matters – by pushing yourself and your team to identify solutions to challenges that are most important for our clients, people, and society
- Develop high-performing people and teams through challenging and meaningful opportunities
- Deliver exceptional client service by maximizing results and driving high performance from people, while also fostering collaboration across businesses and borders
- Influence clients, teams and individuals positively, leading by example and establishing confident relationships
- Understand key objectives for clients and the company, and align people to them to set appropriate priorities and direction

QUALIFICATIONS / SKILLS REQUIRED:

- Undergraduate Degree in Computer Science or Information Management, Graduate degree preferred
- 7+ years designing, developing, implementing and supporting large enterprise information management solutions
- Experience with using Hadoop for analytics use cases using Spark/Data science workbench/etc.
- Experience with data ingestion tools like StreamSets, Ni-Fi etc.

- Hands-on experience with Hadoop stack (Flume, HBase, Pig, Hive, Sqoop) and/or key-value store technologies such as Accumulo
- Experience in designing and developing Hadoop based applications
- Superior verbal and written communication and interpersonal skills and demonstrated ability to work with others effectively in teams
- Strong commitment to professional client service excellence
- Ability to work independently, and manage components of large engagement
- Strong problem skills with the ability to exercise mature judgment
- Demonstrated experience of strong leadership in creating a learning environment
- Ability to work in a fast paced and demanding environment
